

THREE GENERATIONS OF SACRED MASTERY

For more than 40 years, our family has specialized in temple architecture. We have completed over 51 projects consisting of big and small temples, combining traditional hand-carving with modern engineering. Building on the foundation started by our grandfather, we remain dedicated to continuing our family's work.

Under the eternal guidance of our grandfather,
THE LATE PARSHOTTAMDAS KESHAVALBHA SOMPURA

Temple Architect & Contractor

Where Devotion Meets Stone.

FERO WORKS

CNC WORKS

STONE WORKS

OPERATIONAL EXCELLENCE

- We combine traditional skill with modern technology. Our large, advanced facility features high-tech CNC machines, dedicated spaces for master carvers, and industrial cranes for safe handling and transport.
- Beyond machines, our greatest strength is our talented team of master carvers and assembly experts, dedicated to ensuring every piece fits perfectly.

SERVICES

- **Fero Works:** Creative structural designs for mountain-style temples, blending nature with spirituality.
- **Stone Works:** Our core legacy hand-carved sandstone and marble temples, built using the ancient geometry of the Shilpa Shastras.
- **CNC Works:** We use advanced computerized technology to carve complex, sacred patterns with mathematical precision.
